Throughout the Medical Questionnaire, defined words are written in italics. Please refer to them as they are important definitions.

1. **Terminal illness:** means that you have a medical condition that is cause for a physician to estimate that you have less than 6 months to live or for which palliative care has been received.
2. **Metastatic cancer:** means a cancer that has spread from its original site to one or more other area(s) of the body.
3. **Treated:** means that you have been hospitalized, have been prescribed medication (including prescribed as needed), have taken or are currently taking medication, or have undergone a medical or surgical procedure. Note that aspirin/entropen is not considered treatment.
4. **Stable:** means any medical condition (other than a *minor ailment*) for which all the following statements are true:
  - a) There has been no new diagnosis, treatment or prescribed medication.
  - b) There has been no change in treatment or change in medication, including the amount of medication to be taken, how often it is taken, the type of medication or change in treatment frequency or type.
  - c) There have been no new symptoms, more frequent symptoms or more severe symptoms.
  - d) There have been no test results showing deterioration.
  - e) There has been no hospitalization or referral to a specialist (made or recommended) and you are not awaiting results of further investigations for that medical condition.
5. **Minor ailment:** means any sickness or injury which does not require: the use of medication for a period of greater than 15 days; more than one follow up visit to a physician, hospitalization, surgical intervention or referral to a specialist; and which ends at least 30 consecutive days prior to the departure date of each trip. However, a chronic condition or any complication of a chronic condition is not considered a minor ailment.
6. **Regular check-up:** means any periodic medical examination, unrelated to any specific medical condition or symptom, which is intended to verify *your* general state of health.

Exceptions: the routine adjustment of Coumadin, Warfarin, insulin or oral medication to control diabetes (as long as they are not newly prescribed or stopped) and a change from a brand name medication to a generic brand medication (provided that the dosage is not modified.)

## IMPORTANT NOTICE

I understand that any medical condition I have, including those disclosed in **SECTION F**, will be subject to the Pre-Existing Medical Condition Exclusions. I will refer to my policy for the full Pre-Existing Medical Condition Exclusion clause.
- Where I was unsure of my medical history as it relates to the medical questions, I have verified it with my physician. I personally provided the answers on this Medical Questionnaire and I warrant that all information disclosed herein is correct and complete. In the event of a claim, I fully understand that the Insurer will review my prior medical history and these answers and, if any of my answers are incorrect or incomplete, the Insurer will void my policy and my claim will be refused, regardless of whether the incorrect or incomplete answer to any question is related to the cause of my claim or would have rendered me ineligible or resulted solely in a higher applicable premium. I understand that the answers on my Medical Questionnaire are relevant to the risk and constitute the basis of my insurance.
- I understand the necessity of calling Global Excel to obtain approval before seeking medical attention in case of a claim or medical emergency. The toll free telephone number can be found on my wallet card and in my insurance policy.
